

HD-Producer™ IT Series

STANDALONE HD DUPLICATOR

FEATURES:

- 4 different duplication modes
- Easy compare
- Standalone operation
- Up to 15 targets
- Quick, Full, DOD and Secure Erase
- 1 year warranty
- Supports all common formats
- up to 7,2 GB/min per port
- Adaptor for IDE HDDs & others
- Log Report included

The ADR Standalone HD-Producers IT Series are a professional solution to duplicate content on 3,5“,2,5“ SATA HDD/ SSD. Each slot has an independent and dedicated channel which supports up to 110MB per second bandwidth. Whatever your target is, 1 or 15 pieces; the target quantity will not effect the copy speed. The 4 copy modes „quick copy“, „all partitions“, „whole HDD“ and „percentage copy“ will fit the process to your requirements. With the front USB-Port it is easy to make a firmware update. And the new revolutionary Log Report displays information on the PC. The system offers 4 different erase functions. Many different adaptors are available (IDE,- MicroSATA,eSATA,mSATA & others)
